Beta-1-4

Version 5, last updated by ricoshae at 2009-11-04

Beta 1.4

New features:
* Remove logo and name to allow custom branding
* Hint to click on Gears logo
* Hinting, in the upload interface, that the recipient email line can take multiple email addresses
* Custom log for php and flex errors in /log folder
* correctly display upload errors to user

Bug Fixes:
* Allow line breaks in description
* Catch PHP errors
* Typo in file uploaded email
* Replace undefined in senders name or email if no senders name available
* Code update separating gears and standard update
* rename progress bar to loading.
* catch gears upload errors to log
* rename default to index.php
