

# Acknowledgements for v1-6

The FileSender project wishes to acknowledge the following people and organisations for their contributions to the **FileSender 1.6 release**.

## Funding

Sustained funding, staff and other resources for the FileSender project are provided by the National Research and Educational Networks (NRENs) AARNet (Australia), BELNET (Belgium), HEAnet (Ireland), SURFnet (The Netherlands) and UNINETT (Norway).

For the 1.6 release FileSender received targeted financial contributions from ARNES (Slovenia), CSC/FUNET (Finland).

## Core development team

- Chris Richter, Ricoshae: code lead, software architect
- Guido Aben, AARNet: 2nd project lead, field testing, finances coordination
- Jan Meijer, UNINETT: project lead, field testing, documentation
- Xander Jansen, SURFnet: release manager, bug analysis, coding, field testing, release testing lead, documentation
- Wendy Mason, Monash e-Research Centre: workflow testing lead, client-side workflow test automation, client-side release testing, documentation

## New TeraSender upload module

- René Klomp and Edwin Schaap for their work on the FileSender TeraByte Challenge as part of their master in system and network engineering at Amsterdam University (UvA). This work resulted in a research report documenting how to increase the upload speed of FileSender and in the new TeraSender upload module in version 1.6. See [the blog articles for details](#).

## Significant contributions

- David Jericho, AARnet, Australia for feedback, field testing and patches
- Dick Visser, TERENA, the Netherlands, for his solid patches
- Jean-Philippe Evrard, BELNET, Belgium for the customisable footer
- Rogier Spoor, SURFnet, the Netherlands, for provisioning resources
- Thijs Kinkhorst, Tilburg University, the Netherlands, for his solid patches
- The User Experience group (in particular Dharani Perera-Schulz), eSolutions, Monash University, Australia, for conducting a Usability and interaction design review
- UNINETT Feide RnD for supplying Feide Open IdP as a public service
- Pine Security, the Netherlands was contracted for the code security reviews
- Nakamura Motonori, NII, Japan for suggesting to include the download status of a file in MyFiles, triggering the Myfiles update in version 1.6

- Emiel Florijn, the Netherlands, for spotting and reporting a security issue

## **Translations**

Language files were contributed by:

- Andrej Bagon, ARNES, Slovenia: Slovenian
- Claude Tompers, RESTENA, Luxemburg: French, German
- Csillag Tamas, PPKE, Hungary: Hungarian
- Fabio Spelta, UNIMIB, Italy: Italian
- Lubos Kopecky, CESNET, Czech Republic: Czech
- Marina Vermezovic, Amres, Serbia: Serbian
- Nikola Garafolic, SRCE, Croatia: Croatian
- Paco Sanchez, UNIA: Spanish
- Riccardo Valzorio, CILEA, Italy: Italian
- Tomi Salmi, CSC/Funet, Finland: Finnish
- Víctor José Hernández Gómez, UPO, Spain: Spanish
- Victoriano Giralt, University of Malaga, Spain: Spanish

The Dutch, English and Norwegian language files were provided by the FileSender core team.

## **Did we miss someone?**

Despite our best efforts we might have forgotten someone. Please drop us a line on [filesender-dev@filesender.org](mailto:filesender-dev@filesender.org) if you spot any omissions.
