Existing installations

Version 140, last updated by [guido.aben](#) at 2017-06-16

Do you have a FileSender installation that you'd like added to our list of known installs? Please tell us by emailing our support and development discussion mailing list [filesender-dev@filesender.org](mailto:filesender-dev@filesender.org) (see [Support and Mailinglists](#)) or the core development team directly at [filesender-core@filesender.org](mailto:filesender-core@filesender.org).

**Note:** the "Added" column in the table below refers to when an installation was first listed on this page, and hence does not necessarily reflect the date of the currently listed status of the service (which in some cases has been updated since the original listing).

Description	Status	Link to service	Service information	Institutional Documentation	Added
-------------	--------	-----------------	---------------------	-----------------------------	-------
