Release Schedule

Version 51, last updated by xjansen at 2016-01-06

This page outlines the current release planning for FileSender. When reading the release planning, keep in mind we will usually release multiple beta versions to get to the stability and maturity required for a stable release. Do check the SVN playgrounds to get an idea what we're working on besides the releases.

FileSender 2.0 (code name: MultiFile)

Release	Planned date	Release date	Release will include/fix

			transferring multiple files in one transaction (select, upload, myfiles, download). Will include drag & drop.
2.0	2015
